PROFESSIONAL SUMMARY

Detail-oriented Frontend Engineer and Mobile Developer with 5+ years of experience delivering scalable, high-performance web and mobile applications. Proficient in React, Angular, Next.js, Flutter/Dart, and React Native — with strong command of TypeScript, responsive UI design, and cross-platform mobile development. Extensively skilled in system integration (REST, gRPC, WebSockets, SOAP) and state management (Redux, NgRx, Context API). Experienced working in Agile teams across SaaS, legal-tech, fintech, and retail domains. Passionate about clean architecture, exceptional user experience, and continuous learning.

WORK EXPERIENCE

Cytech Consult (IT Consulting) — Lagos, Nigeria

March 2023 – Present

Expert-Level Frontend Developer

- Designed, developed, and maintained responsive web applications using React 18+, Angular, and Next.js — ensuring cross-browser and cross-device compatibility.
- Translated wireframes and design prototypes into functional, polished, interactive interfaces with attention to detail and accessibility.
- Improved application performance through code optimization, lazy loading, and bundle size reduction — achieving up to 35% faster load times.
- Collaborated with backend teams to integrate RESTful APIs for dynamic data handling and real-time UI updates.
- Led code reviews and enforced engineering best practices, elevating code quality and reducing post-release defects by 20%.
- Built and maintained reusable, scalable component libraries that accelerated feature delivery across product teams.
- Used Git (GitHub/GitLab) for version control, maintaining clean and collaborative codebases across distributed teams.
- Participated in daily stand-ups, sprint planning, and retrospectives in an Agile/Scrum environment using Jira and Trello.
- Created and maintained technical documentation for components, workflows, and frontend best practices.

Netop Business Systems (Payment Service Provider) — Lagos, Nigeria August 2020 – January 2021

Frontend Developer Intern

- Assisted in developing and maintaining web interfaces using HTML5, CSS3, and JavaScript, contributing to clean and maintainable codebases.
- Fixed UI bugs and implemented minor enhancements to improve application usability and visual consistency.
- Collaborated with senior developers during code reviews, learning industry best practices and improving coding standards.
- Performed testing and debugging of frontend components to ensure functionality and cross-browser performance.
- Documented code changes, project progress, and best practices as part of team knowledge sharing.
- Quickly adapted to new tools, frameworks, and technologies introduced by the team.

- Participated in Agile processes including daily stand-ups, sprint planning, and retrospectives.

PROJECTS

Field Support Portal — SmartApp Technologies

October 2023

Frontend Developer (Angular 17)

- Built the frontend administrative and configuration portal for a multi-tenant SaaS product handling automatic ticket generation, customer support, and remote/field issue tracking.
- Developed using Angular 17 within a cross-functional team of 5 — working alongside backends, a scrum master, and system architect.
- Integrated Azure AI & Cognitive Services, Azure Maps, and Google Cloud Services into the UI for intelligent, location-aware field support workflows.
- Implemented responsive, accessible components designed for both field agents and administrative users managing complex support pipelines.
- Consumed real-time events from an event-driven backend architecture to keep UI state accurate and live.

TSL Hub — Law Firm Client Portal

October 2023

Frontend Engineer

- Built the complete frontend of a secure, multi-role portal for managing legal case workflows, client communications, and support requests.
- Implemented role-based dashboards and real-time notification UIs for clients, lawyers, and administrative staff.
- Delivered clean, accessible interfaces integrated with backend APIs for live case status updates and document management.
- Applied security-conscious UX patterns and a scalable component architecture for long-term maintainability.

POS Management System — Retail Platform

March 2025

Frontend & Integration Engineer

- Built the frontend interface for a Point-of-Sale system covering inventory management, retail transactions, and sales reporting.
- Developed interactive dashboards for product management, cashier workflows, and real-time transaction monitoring.
- Integrated RESTful APIs for order processing, pricing logic, and stock updates — ensuring seamless frontend-backend data flow.
- Designed responsive, fast-loading UI components optimized for desktop POS terminals and tablet-based workflows.

ComzAfrica — Corporate Website & CMS

November 2024

Frontend Developer

- Developed the full website and CMS for ComzAfrica, a company providing credit facilities for utility services in Rwanda.
- Built using HTML, CSS, JavaScript, and React — with a focus on performance, responsiveness, and clean visual design.
- Delivered a content management interface enabling the client team to update site content independently.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Dart, Rust, HTML5, CSS3

Web Frameworks: React 18+, Angular 17, Next.js, Three.js

Mobile Development: Flutter & Dart, React Native, Cross-Platform Mobile, Mobile-First UI Design

Styling: TailwindCSS, Bootstrap, Sass, Less, Flexbox, CSS Grid, Responsive Design, ARIA / Accessibility

State Management: Redux, React Context API, NgRx, Ngx

API & Integration: RESTful APIs, WebSockets, gRPC, SOAP, XML, OAuth / JWT

Build Tools: Webpack, Vite, Gulp, Grunt

Databases: Database design & integration (frontend data layer)

Testing: React Testing Library, Cypress, Unit & Integration Testing

Dev Tools & Platforms: Git, GitHub, GitLab, Jira, Trello, Azure Services, Google Cloud

Soft Skills: Problem-Solving, Critical Thinking, Time Management, Project Management, Client Confidentiality, Technical Communication, Mentoring

EDUCATION

National Open University of Nigeria <i>B.Sc. Computer Science</i> • Expected: September 2025	Lagos, Nigeria
CS50 — HarvardX (Remote) <i>Computer Science Certificate</i>	October 2024

INTERESTS

JavaScript • Redux • Technology • Mentoring • Flutter & Dart • Rust • Three.js
